Competition rules:

The criteria qualifiers take place on the 800m track (blue). Separated according to the relevant rating classes, 45 minutes plus five laps must be completed.

The hand bikers ride to score points for the hand bike trophy.

The pursuit race over 2000m (5 laps) take place after the completed criteria, on the 400 m track (red) and also separated according to the relevant rating classes in a duel "one on one" and/or knock out system.

This means that the hand bikers ride for cups and bonuses from reha team West and Sunrise Medical.

Example:

In the MH3, 19 hand bikers start. They initially ride their criteria on the 800-metre track. The race distance is 45 minutes plus an additional five laps. When the leader starts their last lap, this also applies to all other starters. The winner secures 300 points for the hand bike trophy. In addition, the top four qualify for the pursuit race for the cups and bonuses taking place in the course of the day, which take place after all criteria races have been completed.

Rules for the pursuit races:

- The four participants per rating class come from the results lists of the previously completed criteria,
- which means that the competition starts directly with the semi-final.
- The pairings are set using the results lists for the criteria, which means that the slowest time competes against the fastest time.
- Using the knock out system, the winners qualify directly for the final.
- The losers of the semi-final ride for third place before the final.
- A race is seen as decided, as soon as you are overtaken within the regular 5 rounds.
